About This Game

Pathstow Mystery VR is a mystic adventure game with a touch of horror and built from the ground up for VR. Created as a SteamVR exclusive it uses all advantages of Room-scale and SteamVR controllers. Steam Audio solution improves quality of sound effects in VR.

Feel the atmosphere of Pathstow. Pathstow is the town where your friend Max Charlton lives. Max Charlton asked you to help him with something... supernatural in his new house in Pathstow. Find out Pathstow's secret! The game features mostly meditative gameplay: The player looks around, investigates the environment, looks for clues, and solves puzzles.

The story is broken down into five episodes of around 15 to 30 minutes in length to allow for intervals in play while enjoying the story.

To prevent any problems with motion sickness game uses teleport-based movement system by default. But you could select artificial locomotion too (head-oriented or, right/left controller - oriented) and move using trackpad.

[I have delved into madness \u2013 the madness of puzzles on the HTC Vive and Pathstow Mystery; It\u2019s not a bad thing as the many escape rooms and puzzle games that exist have already displayed. Pathstow Mystery is a nice mix of \u201cescape room\u201d\(the first episode\) as well as puzzle solving. Difficulties of the 4 episodes range from simplistic to downright..puzzling\(which I guess is the point!\). There is much creative use of VR in this game that you simply could not replicate by using traditional controllers.](#)

[Despite buying the game on the idea it was scary, it is actually not such which was fine with me after playing through Paranormal Activity : The Lost Soul, I was ready for a break from jump scares. The game\u2019s graphics are surprisingly good despite some odd graphic clippings or objects going flying if you place them in random locations or on top of each other. Audio of the game actually fits the game quite well with a haunting style track or nice ambiance that doesn\u2019t distract from the gameplay itself.](#)

[Much of the length of the game isn\u2019t so much \u201cgameplay\u201d but how long you will be stuck on an episode- this reminds me a lot of most puzzle games. Thinking of The Talos Principle : VR, a puzzle can be 1-2 minutes or 1-2 hours depending if you already know the solution and the same holds true for Pathstow Mystery VR.](#)

[As far as difficulty, I don\u2019t consider myself a patient person nor proficient at puzzles. I will give a shout out to the developer \u201cMystic cat\u201d for fielding my confusion on puzzles. As far as episode difficulty, puzzle-wise \u2013 I\u2019d rate them anywhere from fair \(as in, I was close but didn\u2019t solve without assistance\) to no chance in hell\(I wasn\u2019t even in the ballpark.\) I\u2019d usually give myself 30-45 minutes of trying and running around in circles until I\u2019d give up. How much juice you\u2019ll get out of this game will depend upon how much you can stand running in circles and how fast you can solve the puzzles blind before you turn to help.](#)

[For the non-discounted \\$19.99 price \u2013 I have a tough time recommending the game but I am not a puzzle fanatic either. The attention to detail in the puzzles is top notch and without spoiling much, there is a lot here that I haven\u2019t seen in other games. Considering it\u2019s 4 episodes, I\u2019d say at least a couple of them would be worth \\$5.00 as an \u201cescape room\u201d style game on their own. The game stood out to me as unique and it definitely has a narrative and vibe going through the game that is memorable even now as I type this review.](#)

[.Content and quality don't justify the price. Feels like EA.. Very nice game with exploration and touch-hunting experience.](#)

Pros:

[+ atmosphere](#)

[+ music is awesome](#)

[+ many interactive objects](#)

[+ graphic is nice and optimized](#)

[+ you can't die](#)

Cons:

[- not enough horror, meditative gameplay](#)

[- cabinet doors physic could be better](#)

[From my point of view, it is very nice game with interesting puzzles which requires a lot of attention in looking for clues.. Interesting mystery puzzle VR game with a little horror thrown in has teleport and traditional movement options.](#)

Graphics are ok but can be a little dark

Some objects can get stuck below floor level and you are unable to pick up.

The collisions could be better with objects

It's pretty much the date your mother has set you up with her friend's daughter or son, the one who doesn't leave the house much. So your mums doing her friend a favor and you have to suffer the consequences.

I mean they're ok but you can do much better, still, it's a recommend because you still score that night.

Buy if you're an escape, puzzle, horror, atmosphere freak.
