Stuff Organizer Portable 13.1 Incl Product Key [Mac/Win]

Software category: Utility Development language: Delphi License: Free File type: Portable app Stuff Organizer Portable Activation Code is a useful and quite handy cataloging application for multimedia files. It is the portable version of Stuff Organizer which means users can easily have this tool deployed on their USB flash drives and fire it up anywhere they'd like. An installation process is not required. Plus, it does not leave entries in Windows registry. Clean layout The program's design is built around practicality and ease of use. Split between two panels, Stuff Organizer Portable arranges all the items found on a computer in different categories. These can be either applications, books, games, movies, or other types of files. The default ones can be removed and new ones added in their place, or new items can be stacked upon the existing ones. File management features The main characteristic of this app is its ability to execute several default commands depending on the nature of files or folders. Users can unpack archives, extract ISO files, delete useless DIZ, SFV, or NFO items, all with just a click of a button. More options are available for helping you send files and folders to the Recycle Bin, and enable the 'intelligent category selector' (ICS), which is a powerful internal tool for file management. The program is also compatible with a big list of archive extensions, with formats like ISO, TAR, RAR, and ZIP. Plugins can be easily downloaded from the utility's official website and other locations. Additionally, users can save a backup of the whole database and restore it or simply erase everything in just a couple of seconds. Conclusion Stuff Organizer Portable is a powerful app built to manage all your computer's files and folders easily, and move them to one place or another. All in all, if you need a fast and approachable database manager, Stuff Organizer Portable does its job quickly and in a reliable way.
